# Calamare

Calamine 8.0%, Aloe vera Gel 10.0%, Light  
Liquid Paraffin 10.0% & Vit. E Oil 0.5% **Lotion**

## Soft

### Calamine :

Relieves itching, pain & discomfort of minor skin irritation  
Soothing property, provides symptomatic relief in pruritus

### Liquid Paraffin:

Decreases evaporation of water by forming water impermeable film over the skin<sup>1</sup>

### Aloe vera :

Improves skin integrity, decreases appearance of fine lines, wrinkles & erythema<sup>2</sup>

### Vitamin E

Protects the skin from various deleterious effects by acting as a free-radical scavenger<sup>3</sup>

Luliconazole 1% w/w Cream

Imidazole antifungal agent, shows potent activity against variety of fungi, especially dermatophytes<sup>1</sup>

Most potent antifungal agent against Dermatophytes, Trichophyton Rubrum, Microsporum gypseum & Epidermophyton floccosum

More potent antifungal activity than lanoconzaole<sup>1</sup>

Favourable safety profile<sup>1</sup>

Very effective in Athlete's Foot, Ringworm & Jock Itch

Tinea Pedis

Cutaneous Candidiasis

Tinea Cruris / Tinea Corporis

# Luzinix

# *Mahalor*

Loratadine 10 mg. Tablets

Antihistaminic, inhibits the release of histamine & other inflammatory mediators involved in allergic inflammations<sup>1</sup>

Fewer side effects (3%) compared to cetirizine (21%)<sup>1</sup>

Significantly improves number, size & duration of lesions & greater fall in pruritus compared to cetirizine in the treatment of urticaria<sup>1</sup>

**Chronic Idiopathic Urticaria**

**Histamine-Mediated Pruritus**

**Hair loss worries  
Stop & Increase Volume**

# Malleva

2%  
5%  
10%

Minoxidil 2, 5 & 10 % w/v **Solution**

Approved by FDA & Health Canada for the treatment of androgenetic alopecia (male pattern balding & female pattern hair loss)<sup>1</sup>

Slows or stops hair loss & promotes hair growth<sup>2</sup>

Significantly increases hair thickness & density after 6 months treatment of androgenetic alopecia<sup>3</sup>

Increases average total hair counts in the treatment of androgenetic alopecia<sup>4</sup>

# Malleva-F

Minoxidil 5% w/v & Finasteride 0.10% w/w **Tropical Solution**

# Mediper<sup>gel</sup>

Permethrin 5%w/w Gel

First line treatment for scabies

Highly safe as it is minimally absorbed via skin ( only up to 0.5 %)

Has very low mammalian toxicity and does not have any safety implications fro host

**In treatment of scabies permethrin is more effective than gama benzene hexachloride & Ivermectin<sup>1</sup>**

**Body/Head Lice infestation**

**Prevention of Mosquito Bite**

**Maintenance therapy in Scabies**

# Momonic-f

Mometasone 0.1% & Fusidic Acid 2% Cream

## Mometasone

Inhibits histamine release & reduces sensitivity of vascular smooth muscle to histamine<sup>1</sup>

Topical corticosteroid with high potency & safety profile

Treat inflammatory glucocorticoid responsive dermatoses<sup>2,3</sup>

## Fusidic Acid

First choice in primary & secondary skin infections due to efficacy, safety, sensitization potential & spectrum selectivity<sup>4</sup>

High bacterial activity against penicillin & methicillin resistant S.aureus strains, S.epidermidis, S.pyogenes & P.acnes<sup>4</sup>

**Momonic**

your patients  
their food

# Vorizox

Voriconazole 200mg Tablets

Newer generation antifungal having broad spectrum activity & is less toxic compared to other anti fungals

Good tolerability & effective in fungal treatment of immune compromised patients.

Effective for patients undergoing allogeneic hematopoietic cell transplant (HCT) for acute myeloid leukemia (AML)<sup>1</sup>

As effective as amphotericin B for the treatment of aspergillosis & may be more effective<sup>2</sup>

Mucormycosis | Invasive aspergillosis | Candidaemia  
Fluconazole resistant serious invasive Candida infections  
Fungal infections caused by *Scedosporium* spp. & *Fusarium* spp.

**REFRESHED AND  
ENERGIZED SKIN**

# Zachto

Aloe Vera Extract, Olive Oil, Sodium PCA, Kukuk Butter,  
Glycerin, Palm & Coconut Oil **Soap Noodles**

Antimicrobial, helps eliminate harmful pathogen from the skin

Forms a protective layer on he skin & seals moisture

Protects skin from various deleterious effects by acting as a  
free-radical scavenger

Prevents formation of comedones, thus depriving the *p.acnes*

**DRY / ROUGH SKIN**

**SCARS/BLEMISHES**

**DAMAGED SKIN**

**SUNBURNS**
